

# *The 2535 Project*

Build and sustain a herd of cattle that will provide beef for the hungry in our community.

***For I was hungry and you gave me something to eat, I was thirsty and you gave me something to drink, I was a stranger and you invited me in, Matthew 25:35***

About the 2535 Project

---

***“For every wild animal in the forest belongs to me, as well as the cattle that graze on a thousand hills.” Psalm 50:10***

Using the resources from within Cowboy Country Fellowship (Cowboy Church), the 2535 Project is building and sustaining a herd of cattle that will provide beef to needy families within the church and community.

Like all things at Cowboy Country Fellowship, we are comfortable with small beginnings. We believe hands-on ministry should be the goal of every person in the church, and **the 2535 Project makes ministry as easy as feeding a cow.**

Ownership of the mother cows allows us to produce “2535 calves” annually with no ongoing purchase cost. The 2015 phase is to continue purchasing and breeding cows, to build this project to 20 producing cows by 2016.
